

Positive Behaviour Statement

Our commitment

The schools within the Avonreach Academy Trust believe that positive behaviour is, in the first instance, the responsibility of the pupil. It is also important that all teachers share the same expectations in lessons and at other times. The schools will work with young people and their parents and carers to uphold our high standards. Sanctions will be measured and fairly applied through a staged approach. Temporary or permanent exclusion is governed by regulations arising from the 1986 Act, Circular 10/14 and Local Authority procedures. Details are contained in a Worcestershire County Council leaflet.

The policy of the schools in the Avonreach Academy Trust is to publicly recognise achievement in order to encourage success wherever it manifests itself within the student and staff population. Recognition of achievement will encourage, reward and motivate individuals and will take numerous forms and will be the most important emphasis of our work.

Each school's behaviour policy can be found on the following websites:
